

### FINAL TPM IN ITALY

On 30 October, the partners involved in the project met in person in Italy for the final Transnational Project Meeting. The event was hosted by IPPOCRATE A.S. in the Sicilian city of Catania, where the partner organisation is based. The aim of the event was to evaluate all the activities carried out and the results achieved during the two years of the project. In conclusion, the partners are very satisfied with the quality of the work carried out, how the project was managed, the collaboration between the partners and the results achieved.

### In Focus: Project Results

All partners brought with them the final version of the **Serious Game** and the **3 Lesson Modules**, printed and translated into their own languages. This allowed for discussion on any graphic details that could be improved.

The **Serious Game** and **Lesson Modules** were very well received by pupils and teachers during the organisation of the **Multiplier Events** in each school in the partner countries. The **User Guide** was also very positively evaluated by teachers. All project results are available on the **website**.

### MULTIPLIER EVENTS

Multiplier Events were organised by all partner countries in primary schools. Pupils, parents, teachers, educators and prominent politicians participated in the events, helping to increase the project's reach.
